America	DIAGNOSIS	DETROIT ENGINE	**Version: V6.00** **Released Date: Jan 2020** **Highlights:** 1. Upgraded basic functions of 2019- 2020 versions of CPC2, CPC04T, CPC302T, and MCM21T system, including version information, DTC, freeze frame, live data, and active test. 　a) Upgraded to support special functions of the 2019-2020 versions of CPC2, CPC04T, CPC302T, and MCM21T system, including supports for cylinder, injector, DPF, etc. 　b) Upgraded to support parameter setting functions of the 2019-2020 versions of CPC2, CPC04T, CPC302T, and MCM21T system, including Vehicle Parameters, Cruise Control, Limiters, etc. 2. Optimized DTC reading function for MBE and DDEC system (versions of 2019 and 2020). 3. Optimized functions such as Compression, Service routines, Idle speed balance, and Impact delay time in MBE system. 4. Optimized functions such as Clear AFR Learn Table, Particulate Filter De-green Reset, and Rating in DDEC system. 5. Added Hot Function (support for functions like cylinder, injector, DPF, etc.).	√				√	√
America	DIAGNOSIS	DETROIT AFTERTREATMENT	**Version: V6.00** **Released Date: Jan 2020** **Highlights:** 1. Upgraded basic functions of the 2019-2020 versions of CPC2, CPC04T, CPC302T, and MCM21T system, including version information, DTCs, freeze frame, live data, and active test. 2. Upgraded to support parameter setting functions of the 2019-2020 versions of ACM21T and ACM301T system, including DPF and the like. 3. Upgraded to support special functions of the 2019-2020 versions of ACM21T and ACM301T system, including DPF and the like. 4. Added Hot Function (support functions like DPF, VIN, etc.).	√				√	√
America	DIAGNOSIS	DETROIT GEARBOX	**Version: V6.00** **Released Date: Jan 2020** **Highlights:** 1. Upgraded basic functions of the 2019-2020 versions of TCM01T system, including version information, DTC, freeze frame, and live data. 2. Upgraded special functions of the 2019-2020 versions of TCM01T system, including Transmission Learn Procedure, Transmission Dyno Mode, etc. 3. Added Hot Function (support functions like Transmission Learn Procedure, VIN, etc.).	√				√	√

America	DIAGNOSIS	PACCAR ENGINE	Version: V4.00
			Released Date: Jan 2020
			Highlights:
			1. The engine submenus are adjusted to divide engines into MX/PR-series, GR-Series, and PX-series.
			2. Paccar Engine:
			  a) Upgraded basic functions in 2020 MX/PR Engine System, including version information, DTC, freeze frame, live data, active test, and special functions;
			  b) Added the following special functions to MX/PR-series engines: Evaluate the coolant pump，activate the MX engine brake，and check the cylinder compression.
			3. Paccar Post-processing:
			  a) Upgraded basic functions in 2020 post-processing systems (EAS3 & EAS4), including version information, DTC, freeze frame, live data, active test, and special functions;
			  b) Added special functions to post-processing EAS3 system, such as evaluate the Selective Catalytic Reduction (SCR) system, view the Diesel Particulate Filter (DPF) ash load history, evaluate the after-treatment temperature sensors, etc.;
			  c) Added special functions to post-processing EAS4 system, such as evaluate the Selective Catalytic Reduction (SCR) system, view the regeneration history, etc.
				√				√	√

America	DIAGNOSIS	PACCAR BCM	Version: V4.00
			Released Date: Jan 2020
			Highlights:
			1. Added support for basic functions in 2020 VECU, CMP, RHS, and MSM system, including version information, DTC, freeze frame, and live data.
			  a) Added active tests such as activate the beacon, the under hood air inlet solenoid, the windshield washer, the trailer lights, and auxiliary power in VECU system.
			  b) Added special functions like enable or disable the engine idle shutdown timer in VECU system.
			  c) Added activate parking and tail lamps, the brake lights, the reverse alarm, the lift axles, and other functions to CMP system.
			  a) Added special functions like Detect dash switches and Learn dash switches to MSM system.
			2. Added support for 2020 CECU system, including version information, DTC, freeze frame, live data, active tests, and calibration functions.
			  a) Active tests feature testing power take-off (PTO) oil temperature, engine oil pressure, Diesel exhaust fluid, park lamps, etc.
			  b) Calibration functions include: power take-off (PTO) control present, power take-off (PTO) oil temperature gauge installed, TPMS display, etc.

America	DIAGNOSIS	PSI ENGINE	Version: V1.00 Released Date: Jan 2020 Highlights: 1. Added support for Gasoline 4.8L/6.8L/8.8L, CNG 8.8L, and Propane 8.8L engines. Basic functions include version information, DTC, freeze frame, live data, active test, and special functions. 2. Added the following active tests: A/C Compressor #1 Relay, A/C Compressor #2 Relay, Engine Idle Target, Engine Throttle Control Position, Fan Control (High, Medium, Low and Off), Gas Fuel Pump Control, Gas Fuel Pump Control 2, Main Relay (PowerTrain Relay), Malfunction Indicator Light (MIL) Command, Purge Solenoid Valve Opening, Purge Solenoid Valve Opening Additive Correction, Starter Motor Relay Control (SMRC), VCPS (CAM Phaser) Exhaust Desired Position, VCPS (CAM Phaser) Exhaust Duty Cycle, CNG Rail Valve, CNG Tank-1 Valve, CNG Tank-2 Valve, LP Fuel Pump Control, LP Fuel Pump Control 2, LP Purge Lamp, LP Tank Return Valve, LP Tank Supply Valve, and LP Tank Supply Valve 2. 3. Added the following special functions: Block Learn Multiplier (BLM) Reset, Injector Disable Test, Trip Information Reset (TCIS), TPS Min Learn Algorithm Reset, and Tooth Error Correction Learn Test.	√					

America	DIAGNOSIS	HALDEX ABS	Version: V1.50 Released Date: Jan 2020 Highlights: 1. Added the following basic functions to TRS system: Version information, DTC, freeze frame, live data, and special functions. 2. Added the following active tests: Warning lamp, auxiliary configuration 1, auxiliary configuration 2, auxiliary configuration 3, and braking simulation. 3. Added the following special functions: Speed sensors, auxiliary warning lamp and configuration, record updates, programming registration, information On stability control activation, histograms, end-of-line test (EOL), and brake pressure.	√				√	√
America	DIAGNOSIS	TWINDISC	Version: V1.00 Released Date: Jan 2020 Highlights: 1. Added basic functions to TDEC-400/500 system, including version information, DTC, and live data.	√
